DETAILED ACTION

Priority

1. For the record, the Examiner acknowledges that no priority claim has been made in regards to this application.

Information Disclosure Statement

2. For the record, the Examiner acknowledges that the IDS submitted on 01/29/2004 and 04/19/2004. It has been received and considered.

Oath/Declaration

3. For the record, the Examiner acknowledges that the Oath/Declaration submitted on 01/29/2004 has been received and considered.

Drawings

4. For the record, the Examiner acknowledges that the Drawings submitted on 01/29/2004 have been received and considered.

Specification

5. For the record, the Examiner acknowledges that the Specification submitted on 01/29/2004 has been received and considered.

Response to Remarks/Arguments

6. In response to communications filed on 05/02/2007. The following claims, claims 1-4, are presented for examination.

6.1 Applicant's arguments, pages 12-16, with respect to the rejection of claims 1-4 have been fully considered and they are moot in view of the new ground(s) of rejection.

Double Patenting

7. Claims 1-4 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-9 of copending Application No. **10/762,654**. Although the conflicting claims are not identical, they are not patentably distinct from each other because the untransformed text found in the instant application is analogous to the unstirred text of the copending one and both use such text to perform key prospect calculations.

7.1 "A later patent claim is not patentably distinct from an earlier patent claim if the later claim is obvious over, or anticipated by, the earlier claim. In re Longi, 759 F.2d at 896, 225 USPQ at 651 (affirming a holding of obviousness-type double patenting because the claims at issue were obvious over claims in four prior art patents); In re Berg, 140 F.3d at 1437, 46 USPQ2d at 1233 (Fed. Cir. 1998) (affirming a holding of obviousness-type double patenting where a patent application claim to a genus is anticipated by a patent claim to a species with that genus). "ELI LILLY AND COMPANY

Art Unit: 2136

v BARR LABORATORIES, INC., United States Court of Appeals for the Federal Circuit,
ON PETITION FOR REHEARING EN BANC (DECIDED: May 30, 2001).

7.2. "Claim 12 and Claim 13 are generic to the species of invention covered by claim 3 of the patent. Thus, the generic invention is "anticipated" by the species of the patented invention. Cf., *Titanium Metals Corp. v. Banner*, 778 F.2d 775, 227 USPQ 773 (Fed. Cir. 1985) (holding that an earlier species disclosure in the prior art defeats any generic claim) 4. This court's predecessor has held that, without a terminal disclaimer, the species claims preclude issuance of the generic claim. *In re Van Ornum*, 686 F.2d 937, 944, 214 USPQ 761, 767 (CCPA 1982); *Schneller*, 397 F.2d at 354. Accordingly, absent a terminal disclaimer, claims 12 and 13 were properly rejected under the doctrine of obviousness-type double patenting." (*In re Goodman* (CA FC) 29 USPQ2d 2010 (12/3/1993))
